SUMMARY

Following the completion of a twenty-four month data collection campaign, the Floating LiDAR buoy currently situated north-west of Islay and west of Colonsay (at 'Site 1' in Figure 1 below) is to be removed after the 1st May 2025.

The Boemmelbas (Call Sign: LLGZ) will be used for removal activities.

Mariners are requested to maintain a distance of 500 metres from the vessel.

ACTIVITY DESCRIPTION

The Floating LiDAR buoy and associated mooring equipment will be recovered to the deck of the vessel Boemmelbas and removed from location. The buoy will not be redeployed.

An additional notice to mariners will be distributed when the Floating LiDAR buoy has been removed.

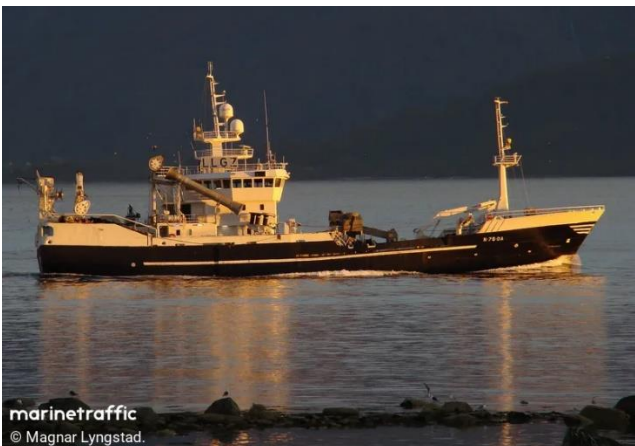

The Floating LiDAR buoy has light marking characteristics comprising FI (5) Y 20s with a nominal range of 5 nautical miles in addition to transmitting its locations via AIS.

PROGRAMME SCHEDULE

The earliest commencement date for these works is the 1st May 2025. Removal activities are expected to be completed within a 3-day period, weather dependent. An additional notice to mariners will be distributed once the removal activities have been completed.
