NOTICE TO MARINERS

No: 02/25

Date of Issue: 22/9/2025

Latitude: 57° 004N

Longitude: 005° 49.6W

Overnight Ferry Berth Works

Mariners are advised that works to create an overnight ferry berth within the Outer Harbour area of Mallaig Harbour commence on Monday 22nd September 2025, and are due to complete on 10th April 2026.

Marine works, including piling works, will be taking place throughout the period. There may also be intermittent diving works. Access will be maintained for vessels throughout the works.

Mariners should note that the stub berth within the Outer Harbour will not be accessible for the duration of the works.

Communications with Mallaig Harbour Authority throughout the works will be maintained on VHF – working channel 09.

Mariners navigating in the vicinity of Mallaig Harbour during this time are requested to do so with caution and regulate their speed to minimise the effects of wash on the area of works.

Further details can be obtained from the contact details above.

A plan showing the area of works is attached.

**Issued on behalf of the Harbour Master
Mallaig Harbour Authority**
